

# NCA CAFETERIA REMODEL 2019

We hope you and the students will enjoy the cafeteria remodel. We have some finishing décor pieces left, but the project is mostly done!

A special thanks to all who helped make this happen - on the other side.

### ***THANK YOU TO THE VOLUNTEERS:***

- **Kody Helms with FORMA Construction** for all of his volunteered guidance, resources, and leadership with this project
- **Pat Bowker** and family for all the hours spent helping make this project move forward
- **Steve DeLeon with Proactive Electric** for the volunteered electrical work
- **Christy Bermensolo** for coordinating volunteer painters and all the hours painting
- **Jenna Kearns** for her assistance with design and painting
- **ALL the volunteers** who helped paint and clean
- **DMJ Contracting Inc.** for volunteered help with painting

### ***THANK YOU TO THE CONTRACTORS:***

- **Dan and Rich with Steelhead Drywall** for all the patching, drywall, and texturing
- **Gabe with Topline Countertops** for the window sill, and trash area countertop

Please note that both **Steelhead** and **Topline** jumped through very busy schedules to get this done per our timeline. Topline donated the top to the trash cabinet. Both provided pricing at below market value for a very quick turnaround. They truly allowed for our current status to be possible.

- **Shocking Difference** for the additional electrical work
- **Amanda Rischel** at Home Depot for her guidance and assistance
- **Tom Treverrow** for installing the cabinets and countertops
- **Robert Jordan** for painting the high beam
- **NCS Facilities crew** for their involvement and help

***THANK YOU TO OUR DONORS AND ALL WHO PARTICIPATED IN  
OUR FALL FUNDRAISER LAST YEAR!***
