

July 30, 2020

NCHS/NCA Families:

Today, July 30th, the Thurston County Health Department issued an announcement to strongly urge and recommend all K-12 schools to reopen with 100% online learning for the Fall term. This is due to a high rate of COVID-19 transmission in Thurston County. Please find the Health Department's official statement attached to this email.

NCHS/NCA received no advanced notification, from the health department, regarding this recommendation. We are consulting with our administrative team and school board to generate an appropriate and well-informed response to this recommendation of how our campus will proceed. We will provide an official statement in response to the health department's recommendation as soon as we can.
