Turkey MOVIE

TUESDAY!

WE will finish up our Turkey Fun writing/reading and we will have a FUN HARVEST PARTY watch the movie "FREE BIRDS."

Movie PG.

Pardoned by the president, a lucky turkey (Owen Wilson) named Reggie gets to live a carefree lifestyle, until fellow fowl Jake (Woody Harrelson) recruits him for a history-changing mission. Jake and Reggie travel back in time to the year 1621, just before the first Thanksgiving. The plan: Prevent all turkeys from ever becoming holiday dinners. Unfortunately, the two birds encounter colonist Myles Standish (Colm Meaney), out to capture feathered friends for all the hungry Pilgrims.
