

6th Grade - Mrs. Watkins / May 26-30, 2025

Math & Science

<u>Bible:</u> We are using verses, devotionals & quotes to discuss God's goodness & love to us.

Science: We started presenting <u>"TEACH the Class"</u>. This will be the main activity in class each day next week. The students are doing a great job of teaching their topic and grading the quizzes. They have said that they have a new perspective on being in charge of the learning process for the class and keeping them focused on the lesson - LOL!

<u>Math:</u> Students took a final End-Of-Course assessment which will help inform math placement classes in 7th grade, however, it will not be entered in the gradebook.

In Math, we are done with daily final lessons from the textbook, but we are still doing investigation & review work, as well as additional fun math activities.

*WATKINS HOMEROOM PE:

This week - Tuesday & Thursday, Friday.

Our PE time on Thursdays has been moved to 1:30-1:55 and then straight to recess, so please remind students to have a WATER BOTTLE!
